Enterprise can enroll employees from supplier or customer companies, in addition to its own employees, under one plan.

If an Enterprise has enrolled the maximum number of users allowed under its pricing plan, the Enterprise can still enroll additional users throughout the license period, as long as the following conditions are met: (1) the minimum number of users enrolled at one time is ten; and (2) the Enterprise pays for the users in advance of their enrollment. For each additional user RFID Revolution will charge the Effective Price Per User pertaining to the Enterprise's plan. For example, if an Enterprise opts for the \$15K Plan, enrolls all 75 users, and subsequently decides to enroll more users, the minimum charge for the latter will be 10 x \$200 = \$2,000.
